EXCELLENCE IN DESIGN | KANSAS CITY

"Bigger Than Remodeling"

KCBR Design | Remodel's award-winning team and customer-focused process are redefining the design and remodeling experience

Founded by husband-and-wife team Abby and Anthony Myers nearly a decade ago, KCBR Design | Remodel has grown to become one of Kansas City's most respected and sought-after destinations for homeowners seeking creative design, exceptional craftsmanship, and a famously smooth experience during their remodeling journey.

"Our clients know we are taking care of every detail," says Anthony. "They can relax knowing we are managing the process and ensuring every element of their remodel is impeccable."

In addition to the firm's completely in-house, start-to-finish process, it is the KCBR team that forms the beating heart of the inspired customer experience. With hundreds of five-star client reviews and more than 1,200 projects filling its award-winning portfolio of stunning kitchen, bath, basement, and whole-home remodels, KCBR's culture-forward ethos has transformed the daunting prospect of renovating into an experience to enjoy.

"Culture is everything to us," says Abby. "Our company culture is defined by our passion for our work and clients. We love what we do, and that translates directly to the experience our clients have with us and the results we achieve with them."

From conceptualizing creative design solutions that elevate life at home to the exceptional craftsmanship they bring to every project, the KCBR team offers a deep bench of skills, resources, and considerable talent in bringing dream spaces to life.

"It's our tagline because it's true: Your Project, Our Passion," says Abby.

"We are building something bigger than kitchens, baths, and basements," concludes Anthony. "It's more of a higher purpose; making an impact with people and bettering our industry by setting the highest standards."

"Your Project, Our Passion"

CLOCKWISE FROM TOP: Entertainment and highlighting the client's vinyl collection was the aim of this basement renovation. High-end appliances and custom cabinetry bring a luxurious touch to the kitchen. Bright wallpaper and round mirrors imbue a pop of fun into the bathroom. Abby and Anthony Myers, owners of KCBR Design | Remodel.
